		The Math Learning Center <i>Bridges in Mathematics</i> Snider and Burk					
		<p>Free Copies - The Math Learning Center is a non-profit organization that can't afford to send out free materials. We do send kits for schools and districts to examine and try out. If they keep the kit, they pay for it. If they decide they don't want it we pay for it to be returned.</p> <p>In-Service Training - The Math Learning Center was started as a teacher training organization. We believe that quality in-service is absolutely critical to the success of any curriculum adoption. All of our trainers are teachers who have used <i>Bridges</i> in the classroom. We will work with districts to design the appropriate in-service package. Price for this in-service is negotiated on a district by district basis depending on the scope of services required.</p>
