

## Model Schools

Model schools are high poverty schools which were rated in the **top 5%** (approx.) of Title I Schools in the state in 2014 based on the new rating formula. They are showcased as models of successful student outcomes and will help support other schools through Oregon’s Continuous Improvement Network (The Network). Unlike Priority and Focus Schools, Model Schools have the potential to change from year to year based on the overall achievement and growth of schools within the state. Those schools identified as Model Schools for the 2013-14 school year are identified below with an asterisk (\*).

**Ashland SD 5**

Belview Elementary School  
John Muir Elementary School\*

**McMinnville SD 40**

Grandhaven Elementary School  
Sue Buel Elementary School\*
