State Superintendent of Public Instruction
Oregon Department of Education
255 Capitol St. NE

January 2006
FOREWORD

The Oregon American Indian/Alaska Native Education State Plan, outlined in this publication, was originally approved by members and educators of the American Indian and Alaska Native communities, the State Board of Education, and staff of the Oregon Department of Education.

The plan includes 11 state educational goals, which have been revised and detailed by members of the statewide Indian Education Council. The goals support the policy of the Oregon Department of Education. The goals also support the educational philosophy of the American Indian/Alaska Native communities and the Indian Student Bill of Rights. The Plan, when implemented, will support the vision of the Oregon Educational Act for the 21st Century by further expanding and respecting the educational rights and opportunities of American Indian and Alaska Native children.

We look forward to the implementation of the policies and procedures contained herein and to the realization of a universal, equitable education for all of our children.

Nikki Squire, Chair
State Board of Education

Susan Castillo
Superintendent of Public Instruction
Indian Student Bill of Rights

The Indian Nations At-Risk Task Force believes that every American Indian and Alaska Native student is entitled to:

- A safe and psychologically comfortable environment in school.
- A linguistic and cultural environment in school that offers students opportunities to maintain and develop a firm knowledge base.
- An intellectually challenging program in school that meets community, as well as individual, academic needs.
- A stimulating early childhood educational environment that is linguistically, culturally, and developmentally appropriate.
- Equity in school programs, facilities, and finances across Native communities, and in schools run by the federal government and public schools in general.
DEPARTMENT OF EDUCATION PHILOSOPHY

American Indian Education

The State Board:

- Recognizes that ORS 336.067(1)(b) requires public schools to place special emphasis on instruction in respect for all humans, and to recognize the dignity and worth of individuals and groups and their participative roles in society.
- Acknowledges that Indian students are dropping out in unacceptably large numbers, and are generally underachieving while in school.
- Recognizes the distinct and unique tribal governments within the state of Oregon and their special relationship with the federal government.
- Believes that all school districts should promote more effective education services for American Indian children by assuring meaningful participation of American Indian people in the planning, implementation, and administration of educational services through such activities as:

1) support of programs and services to meet the specific educational needs of American Indian youth and adults;
2) provision for the involvement of Oregon’s American Indian tribes and people in the total educational program;
3) incorporation of American Indian history, culture, and heritage in the general curricula; and
4) development of viable programs that will permit American Indian people to compete and excel in our society.

Further, the Board believes that within these general guidelines, local school district boards, administrators, teachers, and community leaders should work with the American Indian citizenry so that universal education, essential to the continuation of a healthy democratic society in which all individuals have the opportunity to gain knowledge, skills, and values, is promoted and supported.

- Information relating to distance education opportunities.
- Information regarding state and institutional financial aid resources.
**GOAL 11.2.2**
As determined appropriate by each university, external grant-funding opportunities will be sought to enhance AI/AN opportunities within higher education.

Through mutual initiatives established by ODE and OUS that address the movement of students through K-14 and higher education, OUS will continue to support efforts to provide educational access and opportunities for AI/AN students.

**GOAL 11.3.1**
OUS institutions will provide opportunities for campus populations and local AI/AN communities to collaborate in advisory capacities regarding the enhancement of inclusive and culturally responsive campus environments.

**GOAL 11.3.2**
OUS institutions will promote diversity and awareness of AI/AN cultures through the provision of campus activities, inclusive and equitable environments, and learning opportunities.

**GOAL 11.3.3**
OUS institutions will actively seek to reach parity in faculty/staff positions for which there is under-representation of AI/AN individuals as determined by campus affirmative action plans and goals.

**GOAL 11.4.1**
OUS institutions will provide resources for pre-service teachers to gain knowledge of AI/AN cultures.

**GOAL 11.4.2**
Selected representatives within OUS Schools/Colleges of Education will be provided opportunities to participate in activities to enhance awareness of specific issues associated with Oregon tribes.
