

Clock Buddies

Clock buddies are chosen by giving each student a clock handout with a blank line next to each hour. Each student then goes to classmates to find a buddy for each hour. If Mike goes to Joe, Joe signs Mike's clock at ___ PM and Mike signs Joe's clock for the same time. Students cannot use a name twice and all hours must be filled in. The clocks are then attached to the inside cover of their notebook or workbook. When you want students to work with a buddy, you call out a random time, for example, "It's time to work with your _____ o'clock buddy." Students will then move to and work with the buddy whose name is at that time slot.
