### Instructional Materials Adoption

(1) For each program and course in grades K-12, each school district, on a cycle established by the State Board of Education, shall select and provide students with free appropriate instructional and resource materials produced in accordance with the National Instructional Materials Accessibility Standard (NIMAS). These materials shall contribute to the attainment of district, program, and course or grade level goals and reflect recent knowledge, trends, and technology in the field. The school district process for selecting and adopting instructional materials shall include opportunities for citizen and parent involvement.

(2) The school district process must identify whether the district coordinates with the National Instructional Materials Access Center (NIMAC) when purchasing print materials under OAR 581-022-1622 and 581-022-1650.

(3) Districts that do not coordinate with NIMAC must provide instructional materials to persons who are blind and persons with print disabilities in accessible formats under 581-015-2060.

(4) Sufficient quantities, including those produced in alternate formats and those that cannot be produced from NIMAS files, shall be available in a timely manner to accommodate the number of students who will be using them at any one time. A timely manner means the materials are available at the same time materials are available for students who do not need materials in alternate formats.
