

Mt. Hood Health Assessment

This assessment contains 80 items, but only 80 are used at one time.

Health Occupations (2012)

Number of Correlations	Standard Type	Standard
0	Program Duty	1) Health Occupations
0		1) A Healthcare professional will know the academic subject matter required for proficiency within their area. They will use this knowledge as needed in their role.
19	Standard	1) 1 Demonstrate basic knowledge of human structure, function and development (chemical, cellular, tissue, organ and systems)
1	Standard	2) 2 Recognize body planes, directional terms, quadrants, and cavities.
2	Standard	3) 3 Analyze basic structure and function of the human body including the effects of growth, development and aging.
3	Standard	4) 4 Describe common diseases and disorders and treatment associated with each body systems (prevention, pathology, diagnosis, and treatment)
0	Standard	5) 5 Recognize emerging diseases and disorders.
0	Standard	6) 6 Differentiate between acute and chronic diseases and disorder including mental health aspects.
0	Standard	7) 7 Investigate biomedical therapies as they relate to prevention, pathology, and treatment of disease.
0	Standard	8) 8 Understand and apply mathematical computations related to healthcare procedures (metric and household, conversions and measurements)
0	Standard	9) 9 Analyze diagrams, charts, graphs, and tables to interpret healthcare data.
0	Standard	10) 10 Use statistical concepts to discuss incidence and prevalence rates in a population.
1	Standard	11) 11 Record time using 24-hour clock.
9	Standard	12) 12 Use roots, prefixes, and suffixes to communicate medical information.
4	Standard	13) 13 Use medical abbreviations to communicate healthcare information.
0	Duty	2) B Healthcare professionals will understand how their role fits into their department, their organization and the overall healthcare environment. They will identify how key

- systems affect services they perform and quality of care.
- 0 Standard 1) 1 Explain healthcare delivery models (public, private, government, and non-profit).
- 0 Standard 2) 2 Explain factors influencing healthcare delivery systems.
- 0 Standard 3) 3 Differentiate between the different kinds of healthcare systems: primary, secondary and tertiary.
- 0 Standard 4) 4 Describe responsibilities or consumers within the healthcare system.
- 0 Standard 5) 5 Explain the impact of emerging issues such as technology, epidemiology, bioethics, and socioeconomics on healthcare delivery systems.
- 0 Standard 6) 6 Discuss common methods of payment for healthcare.
- 0 Standard 7) 7 Construct a general systems model using inputs, throughputs, and a feedback loop.
- 0 Standard 8) 8 Construct a healthcare delivery system model.
- 0 Standard 9) 9 Predict where and how factors such as cost, managed care, technology, an aging population, access to care, alternative therapies, and lifestyle/behavior changes may affect various healthcare delivery system models.
- 0 Standard 10) 10 Project outcomes as interconnected components of a modified healthcare system.
- 0 Standard 11) 11 Calculate the cost effectiveness of two separate healthcare delivery systems using the same client procedure.
- 0 Standard 12) 12 Diagram the interdependence of healthcare professions within a given healthcare delivery system and pertaining to the delivery of quality healthcare.
- 0 Standard 13) 13 Design a system analysis process that evaluates the following outcomes; client satisfaction, productivity, cost effectiveness, and efficiency.
- 0 Standard 14) 14 Evaluate the impact of enhanced technology on the healthcare delivery system.
- 0 Standard 15) 15 Explain the concept of system change as it applies to the healthcare environment.
- 0 Standard 16) 16 Analyze the cause and effect on healthcare system change based on the influence of: technology, epidemiology, bioethics, socio-economics, and various forms of complimentary (non-traditional) medicine.

0	Duty	3) C Healthcare professionals will understand the existing and potential hazards to clients, co-workers, and self. They will prevent injury or illness through safe work practices and follow health and safety policies and procedures.
3	Standard	1) 1 Explain and demonstrate infection control practices and procedures.
1	Standard	2) 2 Practice appropriate cleaning, disinfecting, and sterilizing processes.
0	Standard	3) 3 Compare and contrast medical and surgical asepsis.
3	Standard	4) 4 Employ personal safety procedures based on Occupational Safety and Health Administration (OSHA) and Centers for Disease Control (CDC) regulations (including standard precautions).
0	Standard	5) 5 Apply principles of body mechanics and ergonomics.
0	Standard	6) 6 Use personal protective equipment as appropriate to the environment.
0	Standard	7) 7 Evaluate environment to recognize safe and unsafe working conditions.
1	Standard	8) 8 Apply safety techniques to prevent accidents and to maintain a safe work environment.
1	Standard	9) 9 Discuss the rationale for complying with regulatory mandates around disposal and handling of environmentally damaging hazardous substances.
0	Standard	10) 10 Explain the environmental ramifications of incorrect disposal of hazardous wastes on the environment.
0	Standard	11) 11 Recognize Materials Safety Data Sheets (MSDS).
0	Standard	12) 12 Comply with safety signs, symbols and labels.
0	Standard	13) 13 Take appropriate action when observing a hazardous material problem.
0	Standard	14) 14 Apply principles of basic emergency response in natural disasters and other emergencies.
0	Standard	15) 15 Practice fire safety in a healthcare setting.
0	Duty	4) D Healthcare professionals will understand the roles and responsibilities of individual members as part of the healthcare team,

- including effective and sensitive interaction with all members of the healthcare team.
- 0 Standard 1) 1 Explain roles and interrelationships within a healthcare team.
- 0 Standard 2) 2 Recognize characteristics of effective teams.
- 0 Standard 3) 3 Recognize methods for building positive team relationships.
- 0 Standard 4) 4 Analyze attributes and attitudes of an effective leader.
- 1 Standard 5) 5 Analyze attributes and attitudes of an effective team member.
- 0 Standard 6) 6 Recognize factors and situations that may lead to conflict.
- 1 Standard 7) 7 Apply effective techniques for managing team conflict.
- 3 Standard 8) 8 Understand and demonstrate effective use of different communication styles in healthcare settings.
- 0 Standard 9) 9 Demonstrate constructive feedback within a healthcare team.
- 0 Duty 5) E Understand the legal responsibilities, limitations, and implications of their actions within the healthcare delivery setting while performing their duties according to regulations, policies, laws, and legislated rights of clients.
- 0 Standard 1) 1 Examine legal implications affecting healthcare workers.
- 0 Standard 2) 2 Analyze legal responsibilities, limitations, and implications of actions.
- 0 Standard 3) 3 Demonstrate problem solving techniques when confronted with legal dilemmas or issues.
- 0 Standard 4) 4 Identify behaviors and practices that could result in malpractice, liability, or negligence.
- 0 Standard 5) 5 Comply with policies and requirements for documentation and record keeping.
- 0 Standard 6) 6 Perform duties according to regulations, policies, laws, and legislated rights of clients.
- 0 Standard 7) 7 Maintain clients' rights according to the applicable Patients' Bill of Rights.
- 3 Standard 8) 8 Maintain confidentiality according to Health Information Portability Access Act (HIPAA) .
- 1 Standard 9) 9 Apply the doctrine of informed consent.
- 0 Standard 10) 10 Explain the laws governing harassment, labor, and employment.

0	Standard	11) 11 Analyze legislated scope of practice of healthcare professionals.
0	Duty	6) F Healthcare professionals will understand accepted ethical practices with respect to cultural, social, and ethnic differences within the healthcare environment. They will perform quality healthcare delivery.
3	Standard	1) 1 Differentiate between ethical and legal issues impacting health care.
0	Standard	2) 2 Compare personal, professional, and organizational ethics.
0	Standard	3) 3 Recognize ethical issues and their implications related to healthcare.
1	Standard	4) 4 Apply ethical behaviors in healthcare.
0	Standard	5) 5 Apply procedures for reporting activities and behaviors that affect health, safety, and welfare of others.
0	Standard	6) 6 Explore the aspects of patient advocacy and obligations.
0	Standard	7) 7 Discuss how diversity affects healthcare delivery and participation.
1	Standard	8) 8 Discuss the impact of religions and cultures on those giving and receiving healthcare with an understanding of past and present events.
1	Standard	9) 9 Demonstrate respect of individual cultural, social, and ethnic diversity within the healthcare environment.
0	Duty	7) G Healthcare professionals will apply technical skills required for all career specialties. They will demonstrate skills and knowledge as appropriate.
10	Standard	1) 1 Apply skills to obtain Cardiopulmonary Resuscitation (CPR), automated external defibrillator (AED), foreign body airway obstruction (FBAO) and first aid certification.
0	Standard	2) 2 Apply procedures for measuring and recording vital signs.
0	Duty	8) H Healthcare professionals will understand how employability skills enhance their employment opportunities and job satisfaction. They will demonstrate key employability skills and will maintain and upgrade skills, as needed.
1	Standard	1) 1 Classify personal traits or attitudes desirable in a member of the healthcare team.
2	Standard	2) 2 Summarize basic professional standards of healthcare workers as they apply to appropriate

		hygiene, dress, language, confidentiality and behavior (I.e. courtesy and self-introductions).
1	Standard	3) 3 Apply employability skills in healthcare.
2	Standard	4) 4 Exemplify professional characteristics.
0	Standard	5) 5 Engage in continuous self-assessment and career goal modification for personal and professional growth.
0	Standard	6) 6 Compare careers within health science career pathways (diagnostic services, therapeutic services, health informatics, support services, or bioscience research and development).
0	Standard	7) 7 Explore current trends in healthcare occupations.
0	Standard	8) 8 Recognize levels of education, credentialing requirements, employment opportunities, workplace environments, and career growth potential.
0	Duty	9) I Healthcare professionals will understand the fundamentals of wellness and the prevention of disease processes. They will practice preventive health behaviors among clients.
1	Standard	1) 1 Apply behaviors that promote health and wellness.
0	Standard	2) 2 Describe strategies for prevention of diseases including screenings and examinations.
0	Standard	3) 3 Apply practices that promote prevention of disease and injury.
0	Standard	4) 4 Identify high-risk behaviors and outline the various consequences.
0	Standard	5) 5 Apply appropriate safety practices as related to high-risk behaviors.
0	Standard	6) 6 Analyze nutritional labeling and how this information affects healthy decision making.
0	Standard	7) 7 Discuss complementary and alternative health practices.
0	Duty	10) J Healthcare professionals will use information technology applications required within all career specialties. They will demonstrate use as appropriate to healthcare applications.
0	Standard	1) 1 Identify records and files common to healthcare.
0	Standard	2) 2 Interpret information from electronic medical documents.
0	Standard	

		3) 3 Communicate using technology (fax, e-mail, Internet) to access and distribute data and other information.
0	Standard	4) 4 Recognize technology applications in healthcare.
0	Standard	5) 5 Analyze factors that guide appropriate use and access of materials on the web including confidentiality of patients
