

How do students meet the graduation requirements?

Students prove that they have mastered these Essential Skills by earning at or above an achievement standard on an assessment from one of the approved categories within their district.

2016-17 Essential Skills and Local Performance Assessment Manual

The Essential Skills graduation requirements are governed by the *Essential Skills and Local Performance Assessment Manual*, which is available for download at:
http://www.ode.state.or.us/wma/teachlearn/testing/resources/es_localperformanceasmt_manual.pdf

Oregon’s Statewide Assessment

All students will have one opportunity in grade 11 to complete the Smarter Balanced assessments.

For information about the administration of Oregon’s statewide assessments, refer to the *Test Administration Manual* at <http://www.ode.state.or.us/go/tam>. Accessibility supports for the statewide assessment are governed by the *Oregon Administrative Manual* available for download at <http://www.ode.state.or.us/search/page/?=487>.

Smarter Balanced high school math composite scores, reading claim scores, and writing claim scores from other states may be accepted as evidence of demonstrating proficiency on the Essential Skills. Some states do not report a numeric scores for the reading and writing claims, instead reporting the following claim score categories: *Above Standard*, *At/Near Standard* (or *At or Near Standard*), *Below Standard*. When claim scores are reported in this way, only *Above Standard* is acceptable evidence that the achievement standard has been met. The method of transferring student scores will be up to the district. For examples of individual student score reports from nearby states, see *Appendix A: Annotated Example Smarter Balanced Individual Score Report from Other States*.

Smarter Balanced	Reading claim score: 2515	Writing claim score: 2583	Math composite score: 2543

¹ Starting 2015-16, OAKS Reading, Writing, and Mathematics are no longer operational; banked scores from earlier administrations may still be used, though, as evidence of proficiency in the Essential Skills.

Other Standardized Assessments

There are numerous standardized assessments that have been approved by the State Board and that may be offered by districts and/or independently accessed by students.

Accessibility supports for the other standardized assessments are governed by test developer. Students may use any accessibility supports available as a part of a standard administration of the assessment, i.e., an administration of the assessment that produces a standard score report.

Table 3. ACT Achievement Standards for the Writing Essential Skill

Whether or not a student meets the requirement for the Writing Essential Skill through ACT is dependent on both the student’s ACT English score and ACT Writing score. English and Writing scores may come from separate test administrations.

	ACT English score		Minimum ACT Writing score (reported in 16-17 or later ¹⁴)	Minimum ACT Writing score (reported in 15-16)
If the student received an ACT English Score of:	12	Then, the student must receive at least an ACT Writing Score of:	12	36

¹³ To satisfy the Reading Essential Skills requirements, a student must earn a 5 or better on the WorkKeys “Reading for Information,” assessment. To satisfy the Mathematics Essential Skills requirements, a student must earn a 5 or better on the WorkKeys “Applied Mathematics” assessment. A student who earns a Gold or Platinum level on his or her National Career Readiness Certificate (NCRC) will have demonstrated proficiency in the Mathematics and Reading Essential Skills.

Work Samples

Work Samples are comprised of a prompt that students respond to and the student work produced in response to the prompt. Work Samples are scored against the official state scoring guides.

Should districts choose to offer Work Samples as an Essential Skill assessment option, districts must follow the requirements described in the *Essential Skills and Local Performance Assessment Manual*¹⁵. Within the *Manual*, Work Sample development, administration, and scoring are described in the *Assessment Category 3: Work Samples* section. Accessibility supports for Work Samples are governed by *Essential Skills and Local Performance Assessment Manual Appendix A: Accessibility Supports for Work Samples*, which lists Work Sample accessibility supports that are allowable for a Regular Diploma.

A New Kind of Test for Emily; a New Kind of Report for You

The CAASPP English language arts/literacy (ELA) and mathematics tests that Emily took in the spring more broadly reflect California's state content standards than California's old tests, with content that will be needed to prepare students for college and the 21st century job market. The new tests contain a wider variety of questions than traditional multiple-choice tests and include tasks and test items that require students to show how they solve problems. The new tests allow students to demonstrate analytical writing, critical thinking, and problem solving skills along with their knowledge of facts in ELA and mathematics.

These new tests in ELA and mathematics also have a different scoring scale. Because they are based on different academic standards, the scores cannot be compared with scores from the Standardized Testing and Reporting (STAR) Program tests in ELA and mathematics.

These results are one measure of Emily's academic performance and provide limited information. Like any important measure of your child's performance, they should be viewed with other available information—such as classroom tests, assignments, and grades—and they may help guide a conversation with Emily's teacher about how to progress in ELA and mathematics.

During this time of transition to new assessments, you will see additional changes in this report next year. California may also develop new assessments in other subjects, including, but not limited to science and history and social science aligned to state-adopted content standards.

Smarter Balanced ELA/Literacy Assessment Results

1 Jane's ELA/Literacy Score

2680

How does this compare?
 Jane's ELA/Literacy scale score is 2680. This score is higher than the average score of eighth graders in her school, higher than that of eighth graders in her district, and higher than that of eighth graders statewide.

A student's test score can vary if the test is taken several times. If your child was tested again, it is likely that Jane would receive a score between 2670 and 2690.

2

Jane's Score: **2680±10**

Level 4 The student has exceeded the achievement standard and demonstrates advanced progress toward mastery of the knowledge and skills in English language arts/literacy needed for likely success in entry-level credit-bearing college coursework after high school.

Level 3 The student has met the achievement standard and demonstrates progress toward mastery of the knowledge and skills in English language arts/literacy needed for likely success in entry-level credit-bearing college coursework after high school.

Level 2 The student has nearly met the achievement standard and may require further development to demonstrate the knowledge and skills in English language arts/literacy needed for likely success in entry-level credit-bearing college coursework after high school.

Level 1 The student has not met the achievement standard and needs substantial improvement to demonstrate the knowledge and skills in English language arts/literacy needed for likely success in entry-level credit-bearing college coursework after high school.

FAQs

What is the Smarter Balanced ELA/Literacy Assessment?

This assessment is aligned to the academic standards for ELA/literacy. These standards identify what students should know and be able to do to graduate high school ready for college and the workplace. They challenge students to develop a deeper understanding of subject matter, learn how to think critically, and apply what they are learning to the real world.

What is a claim?

ELA claims are broad statements that identify the knowledge and skills students should know and be able to do as they progress toward college and career readiness. How your child performed on each claim is found in the columns to the right.

How did Jane perform on the different claims of the test?

Claim 1: Reading	Claim 2: Writing	Claim 3: Listening	Claim 4: Research/Inquiry
